About Us

According to legal marketing statistics, 87% of law firms worldwide have a full-functional website.

Creating a sustainable presence online is becoming imperative and a question of survival for hundreds of legal service providers who wish to reach their target clients in an effective manner.

4 Reasons To Hire Us Today

We Have Conquered A Niche

Content for an organisation working in the legal industry can never be compared to content for other sectors. The law needs finesse and this is our niche of expertise.

The Issue Of Limited Internal Resources

Most of our clients recognize growth potential but don't have enough hours in the day (or the right skillset) to fulfill it. With our help, you succeed despite those limitations.

Our Core Values

As a company, we have 4 specific values that we believe represent a successful working strategy: Taking Ownership, Thinking Smart, Supporting Others and Undercommit-Overdeliver.

We are cost-effective

Our services are cost-effective, and can cater to a wide range of budgets for lawyers, law firms and legal organisations. Our team is committed to go above and beyond to provide value for your investment.

Purpose

Empowering Legal Practitioners Through Tech & Design Excellence

At Ghostline Legal, we are dedicated to changing the way litigation chambers & law firms approach their digital presence through strategic campaigns that are effective yet BCI-compliant. With over 100 clients served to date, we have built a reputation for delivering high-quality services that exceed expectations for our legal clients.

Our mission is to leverage tech and design through powerful, visually appealing ideation and implementation. Our team of experienced developers, designers and writers have are closely connected with the legal field- this has helped us strengthen our foothold as an industry leader in an otherwise conservative landscape where legal practitioners are often skeptical to go digital in terms of their own legal practice.

Great experience, Highly recommended!

All the artistic and designing skills you have put to my work is worth a lot of appreciation. I would definitely recommend you to my connections for such work. I am more than satisfied with the logo design of my litigation chamber done by Ghostline Legal.

I highly recommend Sourya and his Team at Ghostline for the services.

I had been following Sourya's work and services under Ghostline Legal for quite some time. He is a true professional who was firstly patient in answering all my queries, and also considerate towards my requirements. He provided me with the best solutions and advice towards building my profile. The brilliant work they have done for firms in a short span of time is proof in itself of their quality service and delivery of what's promised.

Great talent and efficiency in work. They delivered a really good website and they were always on their toes to fix whatever changes we had in mind. Besides being on time, the reason I am so fond of Ghostline is that they will do a lot of underrated work for you, that too free of cost. I highly recommend their services for website development.

Deepika Jaiswal- Founder, Information Facilitators

Ghostline Legal is the best firm to approach if you want to develop your website. They not only redesigned my existing website but also gave it a new life. They understand your requirement and provides you with content and suggestions that you need. The best part was prompt delivery of work and never forcing you to adapt to something that you are not comfortable with. I wish them good luck and would recommend to all the lawyers who wish to redesign their website.
